

BT2:

```
public interface Shape {  
    String color = "red";  
    void draw();  
}
```

```
class Rectangle implements Shape {
```

```
@Override
```

```
public void draw() {
```

```
    System.out.println("Draw" + color  
+ "Rectangle");  
}
```

```
}
```
