

BT1:

```
interface Mail {  
    void sendMail();  
    void log();  
}
```

```
class MailImpl implements Mail {
```

```
    @ override
```

```
    public void sendMail() {
```

```
        System.out.println("Dang gui mail...")  
    }
```

```
    @ override
```

```
    public void log() {
```

```
        System.out.println("Dang ghi log...")  
    }
```

```
}
```

```
class Main {
```

```
    public static void main (String [] args) {
```

```
        MailImpl m1 = new MailImpl();
```

```
        m1.sendMail();
```

```
        m1.sendLog();
```

```
}
```

```
}
```
